## Savage Arms Introduces the New Model 10 FCP-SR

**SUFFIELD, Conn. – August 31, 2015** – Savage Arms™ has made its Law Enforcement Series even more versatile by adding a 10-round detachable box magazine to its new 10 FCP-SR rifles. Shipments of these products are currently being delivered.

Each of the three firearms is chambered in 308 Win. and features a threaded muzzle compatible with most suppressors. The platform is built around Savage's classic, duty-proven 110 action, and uses a floating bolt head, zero-tolerance headspacing and precision button rifling to provide outstanding accuracy and consistency. The adjustable AccuTrigger™ lets the shooter set the trigger to their individual preferences for a light, crisp pull, while the AccuStock™ bedding system engages the action three-dimensionally along its entire length, further enhancing accuracy.
