## **Left Hand and Compact Models Join Savage's Bolt-Action B Series**

**WESTFIELD, Massachusetts – February 16, 2018** – Savage has expanded its B Series line of modern bolt-action rimfires with new left-handed and compact models built to fit smaller shooters. Shipments of these firearms are currently being delivered to dealers.

All B Series firearms have an ergonomically designed stock, higher comb, top tang safety and target-style, vertical pistol grip that allow shooters to hold the rifle in a more natural position that puts less pressure on the wrist.

Like the popular A Series rimfires, all B Series rifles feature a 10-round rotary magazine and the accuracy-boosting adjustable AccuTrigger. They also use thread-in zero tolerance headspacing similar to that found on Savage centerfire rifles to produce consistent accuracy.

### **Features & Benefits**

- Now available in left-hand and compact models
- User-adjustable AccuTrigger
- 10-round rotary magazine
- Button-rifled barrel
- Modern, ergonomic composite stock
- Top tang safety
- Drilled and tapped for scope mounts
- Iron sights (22 LR only)

### **Part No. / Description / MSRP**
