

FOR IMMEDIATE RELEASE

Savage Introduces MSR 15 Competition

WESTFIELD, Massachusetts – October 11, 2018 – Savage built the speed, accuracy and customization competitive shooters need to win into every aspect of its new MSR 15 Competition. Shipments of these firearms have been delivered to dealers.

The MSR 15 Competition is fitted with an advanced, 18-inch carbon fiber wrapped stainless barrel built specifically for the rifle in a collaborative effort between Savage and PROOF Research. Its unique ported muzzle brake allows the shooter to tune recoil impulse to stabilize the muzzle for faster, more accurate follow-up shots.

The custom-length gas block can be adjusted for optimal cycling of the full range of bullet weights, as well as for use with a suppressor. The gas block has also been upgraded with an integral Picatinny rail and a custom handguard.
