

FOR IMMEDIATE RELEASE

New Savage Rascals Raise the Bar in Pint-Sized Performance

WESTFIELD, Massachusetts – September 24, 2018 – Savage is pleased to take micro rimfire rifle performance to new heights with the new Rascal FV-SR (Suppressor Ready), Rascal Target and Rascal Target XP. Shipments of these firearms have been delivered to dealers.

The Rascal FV-SR enhances accuracy with a heavy barrel featuring a threaded (1/2-28) muzzle. Like the original Rascal, the single-shot rifle cocks by lifting the bolt and unloads easily—without pulling the trigger. The design also builds superior shooting skills thanks to full-size rifle features, including a peep sight, tough synthetic stock and Savage’s user-adjustable Accu-Trigger system. The two new suppressor-ready Rascal models are available in pink or black.

The new Rascal Target is built for accuracy and adaptability, thanks to a precision hardwood stock, heavy 16 1/8-inch barrel, one-piece Picatinny rail and threaded (1/2-28) muzzle. Like the Rascal FV-SR, the Rascal Target offers full-size rifle features, including Savage’s user-adjustable AccuTrigger system and suppressor-ready barrels. Collectively, the platform offers far better safety, functionality and accuracy than competing designs.

The Rascal Target XP offers all the Rascal Target amenities in a ready-to-shoot package that comes with a mounted and boresighted 4x32mm scope, as well as a bipod sling swivel stud mount. A left-hand model of this configuration is also available.
