

FOR IMMEDIATE RELEASE

New Savage 110 High Country Ideal for Western Hunting and Long-Distance Shooting

WESTFIELD, Massachusetts – June 12, 2019 – Savage is excited to unveil the 110 High Country, a rifle that gives Western hunters the precision and power to take the biggest bulls and the longest shots. Shipments of these firearms have been delivered to dealers.

The 110 High Country is built to maximize accuracy with a spiral-fluted barrel and bolt, as well as the Model 110 action secured three-dimensionally along its entire length within the AccuStock internal chassis. The AccuFit system lets hunters customize length-of-pull and comb height of the TrueTimber Strata synthetic stock. Plus, the user-adjustable AccuTrigger offers a crisp, clean pull critical for making precise shots at extreme distances. The low-friction, coyote brown PVD coating on the barrel, receiver and other critical parts is harder than competing finishes and protects against corrosion and heat. At just 2-4 microns thick, the coating does not interfere with the rifle's tight tolerances.

Features

- AccuFit system lets hunters adjust comb height and length-of-pull
- User-adjustable AccuTrigger
- AccuStock rail system
- TrueTimber Strata synthetic stock with overmold surfaces
- Model 110 stainless steel barreled action with coyote brown PVD coating
- Spiral-fluted barrel and bolt
- Threaded muzzle; magnum calibers feature muzzle brake with taperlock interface
- Detachable box magazine
- PVD-coated bolt handle, receiver, barrel, trigger guard and magwell
- Drilled and tapped receiver
- Three-position safety
