

FOR IMMEDIATE RELEASE

New Savage 212, 220 Perfect for Turkey Hunters

WESTFIELD, Massachusetts – March 13, 2019 – Savage unveils the Model 212 and 220 turkey guns, designed to give serious gobbler hunters maximum performance and adjustability. Shipments have been delivered to dealers.

Originally only offered through the Savage Special Order Office, the Model 212 and 220 bolt-action turkey shotguns are now available everywhere. Both are built around the Model 110 rifle action, which is machined from steel bar stock and secured three-dimensionally along its entire length by the AccuStock internal chassis. Their blued, 22-inch carbon steel barrels are free-floating and secured to the receiver using a Model 110-style locking nut that ensures shot-to-shot consistency.

The user-adjustable AccuTrigger provides a light, crisp pull, and the AccuFit system allows hunters to customize length-of-pull and comb height for precision that shooters won't find in any other turkey gun. The detachable, two-round magazine enables quick loading, and the oversize bolt knob helps operation with gloved hands.

Features

- Smoothbore bolt-action shotgun platform built like a rifle
- AccuFit system lets hunters adjust comb height and length-of-pull
- AccuStock rail system secures the action three-dimensionally along its entire length
- 22-inch, free-floating blued barrel
- Interchangeable extra-full turkey choke (Win. choke thread)
- Detachable box magazine
- User-adjustable AccuTrigger
- One-piece synthetic stock with Mossy Oak Obsession camouflage
- One-piece rail for easy optic mounting
-
