

FOR IMMEDIATE RELEASE

Savage's Adds Rascal Synthetic-Stock Left-Hand Models

WESTFIELD, Massachusetts – March 6, 2019 – Savage is proud to announce it has added four left-hand models to its synthetic-stock Rascal line, a family of pint-size rifles that let shooters build skills thanks to full-sized features. Shipments of these firearms have been delivered to dealers.

The Rascal is the industry's safest micro-rimfire. Shooters cock the rifle by lifting the bolt and unload without pulling the trigger. The new left-handed models feature adjustable peep sights and Savage's user-adjustable AccuTrigger. The Rascal synthetic left-hand is available in black and pink. The Rascal FLV-SR, also in black and pink, delivers even more precision thanks to a heavy barrel with a threaded (1/2-28) muzzle.

Features

- Left-hand models
- Safe, accurate, easy to use
- Manual safety
- Unload without pulling the trigger
- Adjustable peep sights
- Adjustable AccuTrigger
- Feed ramp
- Cocks by lifting bolt
- Carbon steel sporter barrel
- Synthetic stock with 11.25-inch length-of-pull
