

FOR IMMEDIATE RELEASE

CCI Ammunition Releases New HEVI-Bismuth Centerfire Handgun Shotshells For Pest Control

LEWISTON, Idaho – August 9, 2024 – CCI Ammunition adds six new Hevi-Bismuth centerfire handgun shotshell loads to its pest control product line. Product details and availability can be found on the brand's website.

[Pest Control Bismuth Shotshell](#)

The new Hevi-Bismuth pest control centerfire handgun shotshells are loaded with the Catalyst lead-free primer and HEVI-Bismuth pellets. At 9.6 g/cc, the shot carries nearly the same density and downrange energy of lead but adheres to all non-toxic ammunition requirements. They are designed to produce effective short-range patterns on pests and are packaged in 10-count boxes.

“You don’t get to choose when or where you’ll encounter dangerous, damaging pests, but you’ll always be prepared to take them out with our HEVI-Bismuth centerfire handgun shotshells,” said Chris Laack, CCI’s Handgun Product Manager. “They’re loaded with HEVI-Bismuth pellets alloyed and cast in Sweet Home, Oregon, by our affiliate company, HEVI-Shot Ammunition, and it’s the best bismuth shot in the industry. This product is intended for those required to use lead-free options.”

About CCI Ammunition

Dick Speer founded Cascade Cartridge, Inc. in 1951, next to the Snake River in Lewiston, Idaho. The company manufactured and marketed centerfire primers for government use in its infancy. CCI now develops them for sporting applications and is the world leader in rimfire products. The company also produces industrial powerloads and Blazer ammunition. CCI is an ammunition brand of The Kinetic Group.
