Remington Ammunition Expands Core-Lokt Tipped Offerings

LONOKE, Ark. – January 25, 2024 – [Remington](#) has announced five new loads in their popular Core-Lokt Tipped line of ammunition, including in hot new cartridges 360 Buckhammer, 6.5 PRC, 7 PRC and 300 PRC as well as in classic 7mm-08 Remington. The new rounds will extend the Core-Lokt Tipped line to 14 calibers with 18 load options and counting.

“Remington is excited to kick off the new year with new Core-Lokt Tipped,” said Remington’s Director of Centerfire Product Affairs Kris Carson. “We are proud to add award-winning 360 Buckhammer to our Core-Lokt Tipped line and offer hunters a wider range of options to suit their specific needs and preferences. Core-Lokt Tipped’s smashing success shows hunters around the world have embraced the new generation of the Deadly Mushroom.”

Core-Lokt Tipped brings more accuracy and advanced technology to the groundbreaking Straight Up Better straight wall cartridge, 360 Buckhammer. With more velocity and energy than either 30-30 Win or 350 Legend, 360 Buckhammer is now available in more ammunition and firearm offerings than ever.

For over seven decades, Core-Lokt ammunition has been the go-to choice for American hunters, delivering reliable performance and consistent results. With the introduction of Core-Lokt Tipped in 2021, Remington took the iconic Deadliest Mushroom In the Woods to the next level. The incorporation of the Big Green Tip paired with a new boat-tail design ensures outstanding flight aerodynamics and accuracy, even at extended ranges – while maintaining the classic terminal performance on game that Core-Lokt is known for.
