Speer Ammunition Receives Duty Rifle Ammunition Contract with a Federal Agency

LEWISTON, Idaho – December 30, 2024 – Speer Ammunition announced that it was awarded a duty rifle ammunition contract with U.S. Customs and Border Protection (CBP). The contract calls for Speer to supply the agency with Gold Dot Tipped ammunition in .308. CBP is one of the world’s largest law enforcement agencies and is charged with border security while also overseeing lawful international trade and travel. The contract has a ceiling value of \$7 million over five years.

“We are proud to provide the highest quality duty ammunition to CBP officers and agents charged with the monumental task of safeguarding the American homeland,” said Vice President of Government Sales David Leis. “We know they require the best ammunition in their mission to protect our borders and keep the homeland safe. This large contract solidifies Speer as a top choice for law enforcement.”

Speer Gold Dot Tipped Duty Rifle brings proven bullet technology to the rifle platform. The Gold Dot bullet was the first high-performance, bonded-core bullet available in handgun ammunition and has since set the bar for duty ammunition. Speer is now available in rifle ammunition for agencies everywhere. These specially designed loads bring law enforcement rifle ammunition to the next level.

“Regarding dependability and terminal ballistics, Speer is the gold standard,” continued Leis. “The versatility, reliability, and superior construction of the new Speer LE Gold Dot Tipped Duty Rifle loads allow law enforcement agencies to utilize this tested and proven bullet technology in duty rifles confidently.”

Speer Ammunition can be found at dealers nationwide and online. For more information on all Speer products, visit www.speer.com.
